

IT1336E/FN

USB2.0 Single LUN Multi Card Reader Controller (CF/SD/MS/SM/xD Combo)

Preliminary Specification V0.9.1

ITE TECH. INC.

Managed pell - Physical Association (1991)

1. Features

- Complies with USB Specification Rev.2.0 for Bus Power Operation
- High-speed USB 2.0 interface; backward compatible with USB 1.1
- Integrated USB 2.0 Transceiver Macro cell Interface (UTMI) and Serial Interface Engine (SIE)
- Supports bus powered and self powered modes
- Complies with USB Mass Storage Class Bulk-Only Transport Specification Rev.1.0
- MSC Bulk-Only Interface: Control, Bulk IN, Bulk OUT and Interrupt Endpoints for Mass
- Embedded High Speed 8051 8-bit Microcontroller
- 30MHz operating speed, 1 clock per instruction cycle
- 32K bytes ROM and 256 bytes internal RAM
- 1.75K bytes external RAM

Storage Class

- USB/SD Card ISP mechanism for firmware code upgrade
- Watch dog timer for system recovery
- Supports Multiple Flash Card Interfaces and the Latest Flash Card Specification
- CompactFlash™ (CF) card 16-bit True IDE PIO and Ultra DMA mode support. Compliant with up to CF card spec. Rev. 4.0
- MultiMediaCard™ (MMC) card spec. Rev. 4.2 (1/4/8-bit) and SecureDigital™ (SD) card Rev. 2.0. @48MHz operating speed. Compliant with high-speed 52MHz MMCPlus™ (HS-MMC) and high-speed 50MHz HS-SD, high capacity HC-SD (SDHC) specifications
- Memory Stick™ PRO-HG Duo card format spec.
 Rev.1.01 (8-bit) @60MHz operation peed
- Memory Stick™ (MS) card format spec. Rev.
 1.43 and Memory Stick PRO™ (MS PRO) card format spec Rev.
 1.03 (4-bit) @40MHz operating speed
- SmartMedia[™](SM) card spec. Rev. 1.0 and xD-Picture Card[™] card spec. Rev. 1.2

- High Performance Hardware Engine
- 1K Bytes DMA Ping-pong Buffer for Automatically Multi-sectors Burst Read/Write with Cards
- 1T High Speed 8051 CPU Runs at 30MHz Operating Speed Reduces Overheads of Command Parsing
- High Efficient DMA Hardware Engine Improves Transfer Rate between USB and Flash Card Interfaces
- Integrates One MOSFET Switch for Power Supply of Flash Card Slot (Two MOSFETs in IT1336E-64)
- Short circuit protection (Enabled by EEPROM configuration)
- Inrush current control (Enabled by EEPROM configuration)
- Customized VID/PID, Serial Number and String Information by External Serial EEPROM
- Serial EEPROM can be ISP by USB
- Hardware and Software Power Saving Features are Provided
- Support Reconnect by Card Insertion after Safe Removal on System Tray
- Built-in and Programmable Pull Up/Pull Down Resistances for Card Interfaces and GPIOs
- On Board 12MHz Crystal Driver Circuit
- Support Optional 48MHz Clock Input
- 5V or 3.3V Operating Power Supply Option
- Built-in 5V to 3.3V and 3.3V to 1.8V Dual Regulator and POR Circuit
- 48-Pin or 64-Pin LQFP / 24-Pin QFN

2. General Description

The IT1336E/FN is a USB 2.0 Single Slot Flash Card Reader Controller by a highly integrated single chip solution that enables users to enjoy high-speed transmission between buses of USB 2.0 and versatile flash card interfaces with up-to-date specification for each.

The IT1336E/FN enables PC/NB, MFP, DVD, TV... that with USB 2.0 to read/write various type of flash media cards including CompactFlash™ (CF) TypeI/II, Security Digital™ (SD), MiniSD™, MicroSD, TransFlash™ (T-Flash), High Capacity SD (SDHC), MultiMediaCard™ (MMC), Reduced Size MultiMediaCard™ (RS-MMC), High Speed MMC (HS-MMC), MMCmobile™, MMCplus™, MMCmicro, High Capacity MMC (HC-MMC), Memory Stick™ (MS), , Memory Stick Duo™ (MS Duo), High Speed Memory Stick™ (HS MS), Memory Stick PRO™ (MS PRO), Memory Stick PRO™ Duo (MS PRO Duo), Memory Stick PRO™-HG Duo (MS PRO-HG Duo) Memory Stick ROM, Memory Stick Micro (M2™), SmartMedia™ (SM), and xD-Picture Card™ on a single chip.

The IT1336E/FN integrates a high speed 1T 8051 microprocessor and a high efficiency DMA hardware engine for the best data transfer performance between USB and flash card interfaces. Bedsides, it also builds in five MOSFET switches for power control of each card and POR (Power On Reset) circuit to save BOM cost. A serial EEPROM interface is provided to store customized information such as VID/PID, serial number, string, LUN number corresponding supported card type, LED number and blinking style... and so on.

The IT1336E/FN complies with USB specification Rev. 2.0 and USB Mass Storage Class specification Rev. 1.0 such as to be easily supported without additional driver under Windows XP/2000/ME, Mac OS 9.x above, and Linux Kernel 2.4 above. With device driver installed, it can be supported on Windows 98/98SE and Mac OS 8.x as well

The IT1336E/FN provides advanced power saving features including hardware and software mechanisms. If power saving feature is configured by S1/S0 setting (S1/S0=1/0), the IT1336E/FN will automatically disconnect from USB link and enter to suspended state for power conservation as long as no card insertion. Furthermore, the IT1336E/FN will reconnect to USB link and resume accessing as soon as card inserting. An optional software driver is provided to companion with IT1336E/FN for conservancy of more power consumption even card is inserted. The software driver will instruct IT1336E/FN enter to suspended state while card is not accessed for a period of time and resume right after the host intends reading/writing the card. The ability of reconnection by card insertion accomplishes the function of soft recovery after accident or mandatory safe removal on system tray in embedded applications.

3. Application Note

3.1 Applications

- USB 2.0 single LUN All-in-one multi flash card reader
- USB 2.0 dual LUN All-in-one multi flash card reader (IT1336E-64)
- PC/NB, MFP, DVD, STB, HDTV, MCPC, MID builds in with USB host and requires flash card accesses

3.2 S1(EE_CLK) and S0(EE_SDA) Setting Information

Table 3-1. S1(EE_CLK) and S0(EE_SDA) Jumper Setting Information

# of LUN	LUN0	LUN1	Applied Part	CIS Check Option**	SD_WP Option***	S1S0 S	Ü
						S1	S0
Single LUN	CF/SD/MMC/MS /SM/xD	None	IT1336E-48	Disable	with WP	1	1
LON	CF/SD/MMC/MS /SM/xD	None	IT1336E-48	Disable	w/o WP	0	0
	CF/SD/MMC/MS /SM/xD	None	IT1336E-48	Enable	with WP	0	1
	CF/SD/MMC/MS /SM/xD *	None	IT1336E-48	Enable	with WP	1	0
	SD/MS/MMC	None	IT1336FN-24	Disable	with WP	Fixed 1	Fixed 1
Dual LUNs	SD0/MS0/MMC0 /SM/xD	SD1/MS1 /MMC1	IT1336E-64	Enable	with WP	2	1
	SD0/MS0/MMC0 /SM/xD	SD1/MS1/ MMC1	IT1336E-64	Disable	LUN1 w/o WP	2	0

^{*} When S1S0 setting as "10", both the power saving feature and CIS check function are enable. Please contact ITE for detail setting information.

Note:

- 1. 0: Pull Low, 1: Open, 2: Capacitance to GND.
- 2. Settings of S0=2 are reserved and should not be used.

www.ite.com.tw 5 IT1336E/FN V0.9.1

^{**} The CIS check option controls enable or disable integrity checking for xD and MS cards. ITE Tech. highly suggests customers activating this function to secure safely media operation.

^{***} The SD_WP option controls SD_WP (Write Protect) function. SD Socket that has no SD_WP pin can be used in the option of w/o WP check. (S1S0 is 00 for single LUN and 20 for dual LUNs)

6. Pin Description

6.1 IO Type Notation

Notation	Description
CMOS 3-state	CMOS level IO with tri-state™ control
Schmitt trigger	CMOS Input with Schmitt Hysteresis level
Power	Power/Ground
Analog	Analog Signaling
I	Input
0	Output
Ю	Bi-directional
Rpu = 10K	10K Ohm equipped with default pull up
Rpd = 10K	10K Ohm equipped with default pull down
Rpu = 50K	50K Ohm equipped with default pull up
Rpd = 50K	50K Ohm equipped with default pull down

6.2 IT1336E-48 Pin Description (S1S0=11/00/10/01, Single LUN Combo)

Table 6-1. IT1336E-48 Pin Description

Pin(s) No.	Symbol	Ю	IO Type	Rpu	Rpd	Description
1	XTALO	0	Analog			12MHz crystal output.
2	XTALI	I	Analog			12MHz crystal input.
3	CF_RST/ xD_CD	Ю	CMOS 3-state	50K		CF card reset signal. xD-Picture card card detect.
4	CF_IORDY	I	CMOS 3-state	50K		CF card IO Ready signal.
5	CF_A2/ SM_WP_SW / SD_CMD/ MS_BS	Ю	CMOS 3-state	50K		CF card address bit 2. SmartMedia card write protect switch. SD/MMC card command signal. Memory Stick card bus state signal.
6	CF_DMARQ	Ю	CMOS 3-state		10K	DMA request pin for CF card DMA mode.
7	CF_A1/ SM_RD/ MS_INS	Ю	CMOS 3-state	50K		CF card address bit 1. SmartMedia card read enable. Memory Stick card insertion signal.
8	CF_DMACK	0	CMOS 3-state			DMA acknowledge for CF card DMA mode.
9	CF_A0/ SM_RNB/ SD_CD	Ю	CMOS 3-state	50K		CF card address bit 0. SmartMedia card ready/busy signal. SD/MMC card card detect.
10	CF/SM/SD/ MS D0	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 0.

www.ite.com.tw 19 IT1336E/FN V0.9.1

Pin(s) No.	Symbol	Ю	Ю Туре	Rpu	Rpd	Description
11	CF/SM/SD/ MS D1	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 1.
12	CF_D8/ SM_CLE	Ю	CMOS 3-state			CF card data bit 8. SmartMedia card command latch enable.
13	CF/SM/SD/ MS D2	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 2.
14	VDD18	1	Power			Internal core 1.8V power.
15	VSS		Power			Digital ground.
16	VDD33		Power			3.3V digital power.
17	PWR_SW2	-	Power			Power MOSFET2.
18	CF_D9/ SM_ALE	Ю	CMOS 3-state			CF card data bit 9. SmartMedia card address latch enable.
19	CF_D10/ SM_CD	Ю	CMOS 3-state			CF card data bit 10 SmartMedia card card detect.
20	CF_CD	-	CMOS 3-state	50K		CF card detect.
21	CF/SM/SD/ MS D3	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 3.
22	CF_D11	Ю	CMOS 3-state			CF card data bit 11.
23	RST	-	Schmitt trigger			Chip reset, active low.
24	CF/SM/SD/ MS D4	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 4.
25	GPIO0/LED	Ю	CMOS 3-state	50K		GPIO Port1 bit 0 Operating LED indicator.
26	REG5Vin		Power			Regulator 5V power input.
27 28	REG33Vout VSS		Power Power			Regulator 3.3V power output. Digital ground.
29	CF_D12	Ю	CMOS 3-state			CF card data bit 12.
30	CF/SM/SD/ MS D5	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 5.
31	TC	I	Schmitt trigger			Chip test mode enable, active high. Connects to ground in normal mode.
32	CF_D13	Ю	CMOS 3-state			CF card data bit 13.
33	CF/SM/SD/ MS D6	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 6.
34	CF_D14	Ю	CMOS 3-state			CF card data bit 14.
35	CF/SM/SD/ MS D7	Ю	CMOS 3-state			CF/SM/SD/MS card data bit 7.
36	REG18Vout		Power			Regulator 1.8V power output. Connects capacitors to ground.
37	REG33Vin		Power			Regulator 3.3V power input.
38	CF_D15	Ю	CMOS 3-state			CF card data bit 15.
39	CF_CS0/ SM_CE/ SD_WP	Ю	CMOS 3-state	50K		CF card chip select 0. SmartMedia card card enable. SD/MMC card write protect.
40	CF_IORD/ SM_WP/	0	CMOS 3-state			CF card IO read strobe. SmartMedia card write protect signal.

Pin(s) No.	Symbol	10	IO Type	Rpu	Rpd	Description
	SD_CLK/ MS_CLK					SD/MMC card clock. Memory Stick card clock.
41	VSS	Р	Power			3.3V digital ground.
42	CF_IOWR/ SM_WR	0	CMOS 3-state			CF card IO write strobe. SmartMedia card write enable.
43	EE_SDA	Ю	CMOS 3-state	10K		EEPROM serial data. S0 for configuration setting.
44	EE_CLK	0	CMOS 3-state	10K		EEPROM clock. S1 for configuration setting.
45	AVDD33		Power			Analog 3.3V power.
46	DP	Ю	Analog			USB DP signal.
47	DM	Ю	Analog			USB DM signal.
48	AVSS		Power			Analog 3.3V ground.

Comments

Stresses above those listed under "Absolute Maximum Ratings" may cause permanent damage to this device. These are stress ratings only. Functional operation of this device at these or any other conditions above those indicated in the operational sections of this specification is not implied, and exposure to absolute maximum rating conditions for extended periods may affect device reliability.

DC Electrical Characteristics (Operation Condition VDD33=3.0V~3.6V, Tj=0°C~115°C)

Symbol	Parameter	Condition	Min	Тур	Max	Unit
REG5Vin	Regulator Supply Voltage		4.75	5.0	5.25	V
V_{IH}	Input High Voltage	VDD33=3.3V, VDD18=1.8V	2.0		3.6	V
V_{IL}	Input Low Voltage	VDD33=3.3V, VDD18=1.8V	0		0.8	V
V _{OH}	Output High Voltage	VDD33=3.3V,IOH = -2mA~ -16mA	2.4			V
V _{OL}	Output Low Voltage	VDD33=3.3V,IOL = 2mA ~ 16mA			0.4	V
VT+	Schmitt Trigger Low to High Threshold Voltage	VDD33 = 3.3V	8.0	1.1		V
VT-	Schmitt Trigger High to Low Threshold Voltage	VDD33 = 3.3V		1.6	2.0	V
IIN	Input Leakage Current	VDD33 = 3.3V, VDD18 = 1.8V	-10	±1	+10	uA
loz	Tri-state Output Leakage Current	VDD33 = 3.3V, VDD18 = 1.8V	-10	±1	+10	uA
Icc	Operating current	VDD33 = 3.3V, VDD18 = 1.8V, without card insertion		30		mA
Isusp	Suspend current	VDD33 = 3.3V, VDD18 = 1.8V		350		uA
I BOUG	Pull-up/Pull-down Resistance	VDD33 = 3.3V, VDD18 = 1.8V	-50		+50	%

11. Top Marking Information

ITE TECH. INC. TERMS AND CONDITIONS OF SALE (Rev: 2005)

PARTIES

ITE Tech. Inc. ("Seller") is a company headquartered in Taiwan, Republic of China, and incorporated under laws of Republic of China, Buyer is a company or an entity, purchasing product from ITE Tech. Inc.

1. ACCEPTANCE OF TERMS
BUYER ACCEPTS THESE TERMS (i) BY WRITTEN ACCEPTANCE (BY
PURCHASE ORDER OR OTHERWISE), OR (ii) BY FAILURE TO RETURN GOODS
DESCRIBED ON THE FACE OF THE PACKING LIST WITHIN FIVE DAYS OF THEIR DELIVERY

- <u>DELIVERY</u> Delivery will be made Free Carrier (Incoterms), Seller's warehouse, Science ed Industrial Park, Hsinchu, Taiwan.

 Title to the goods and the entire risk will pass to Buyer upon delivery to carrier.
- Shipments are subject to availability. Seller shall make every reasonable effort to meet the date(s) quoted or acknowledged; and if Seller makes such effort. Seller will not be liable for any delays.

3. TERMS OF PAYMENT

- Terms are as stated on Seller's quotation, or if none are stated, net thirty (30) days. Accounts past due will incur a monthly charge at the rate of one percent (1%) per month (or, if less, the maximum allowed by applicable law) to cover servicing
- Seller reserves the right to change credit terms at any time in its sole discretion.

LIMITED WARRANTY

- Seller warrants that the goods sold will be free from defects in material and (a) workmanship and comply with Seller's applicable published specifications for a period of ninety (90) days from the date of Seller's delivery. Within the warranty period and by obtaining a return number from Seller, Buyer may request replacement or repair
- Goods or parts which have been subject to abuse (including without limitation repeated or extended exposure to conditions at or near the limits of applicable absolute ratings) misuse, accident, alteration, neglect, or unauthorized repair or improper application are not covered by any warranty. No warranty is made with respect to custom products or goods produced to Buyer's specifications (unless specifically stated in a writing signed by Seller).
- No warranty is made with respect to goods used in devices intended for use in applications where failure to perform when properly used can reasonably be expected to result in significant injury (including, without limitation, navigation, aviation or nuclear equipment, or for surgical implant or to support or sustain life) and Buyer agrees to indemnify, defend, and hold harmless Seller from all claims, damages and liabilities arising out of any such uses.
- (d) This Paragraph 4 is the only warranty by Seller with respect to goods and may not be modified or amended except in writing signed by an authorized officer of Seller. (e) Buyer acknowledges and agrees that it is not relying on any applications, diagrams or circuits contained in any literature, and Buyer will test all parts and applications under extended field and laboratory conditions. Notwithstanding any cross-reference or any statements of compatibility, functionality, interchangeability, and the like, the goods may differ from similar goods from other vendors in performance, function or operation, and in areas not contained in the written specifications, or as to ranges and conditions outside such specifications; and Buyer
- agrees that there are no warranties and that Seller is not responsible for such things (f) EXCEPT AS PROVIDED ABOVE, SELLER MAKES NO WARRANTIES OR CONDITIONS, EXPRESS, IMPLIED, OR STATUTORY; AND SELLER EXPRESSLY EXCLUDES AND DISCLAIMS ANY WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE OR APPLICATION.

LIMITATION OF LIABILITY

- Seller will not be liable for any loss, damage or penalty resulting from causes beyond its reasonable control, including but not limited to delay by others, force majeure, acts of God, or labor conditions. In any such event, the date(s) for Seller's performance will be deemed extended for a period equal to any delay resulting.
 (b) THE LIABILITY OF SELLER ARISING OUT OF THE CONTRACT OR ANY GOODS SOLD WILL BE LIMITED TO REFUND OF THE PURCHASE PRICE OR REPLACEMENT OF PURCHASED GOODS (RETURNED TO SELLER FREIGHT PRE-PAID) OR, WITH SELLER'S PRIOR WRITTEN CONSENT, REPAIR OF PURCHASED GOODS
- Buyer will not return any goods without first obtaining a customer return order
- AS A SEPARATE LIMITATION, IN NO EVENT WILL SELLER BE LIABLE (d) AS A SEPARATE LIMITATION, IN NO EVENT WILL SELLER BE LIABLE FOR COSTS OF SUBSTITUTE GOODS; FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL OR INDIRECT DAMAGES; OR LOSS OF USE, OPPORTUNITY, MARKET POTENTIAL, AND/OR PROFIT ON ANY THEORY (CONTRACT, TORT, FROM THIRD PARTY CLAIMS OR OTHERWISE). THESE LIMITATIONS SHALL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY
- (e) No action against Seller, whether for breach, indemnification, contribution or otherwise, shall be commenced more than one year after the cause of action has accrued, or more than one year after either the Buyer, user or other person knew or with reasonable diligence should have known of the matter or of any claim of dissatisfaction or defect involved; and no such claim may be brought unless Seller has first been given commercially reasonable notice, a full written explanation of all pertinent details, and a good faith opportunity to resolve the matter.

 (f) BUYER EXPRESSLY AGREES TO THE LIMITATIONS OF THIS PARAGRAPH 5 AND TO THEIR REASONABLENESS.

6. SUBSTITUTIONS AND MODIFICATIONS

Seller may at any time make substitutions for product ordered which do not materially and adversely affect overall performance with the then current specifications in the typical and intended use. Seller reserves the right to halt deliveries and shipments and alter specifications and prices without notice. Buyer shall verify that the literature and information is current before purchasing.

CANCELLATION

The purchase contract may not be canceled by Buyer except with written consent by Seller and Buyer's payment of reasonable cancellation charges (including but not be limited to expenses already incurred for labor and material, overhead, commitments made by Seller, and a reasonable profit).

INDEMNIFICATION

Seller will, at its own expense, assist Buyer with technical support and information in connection with any claim that any parts as shipped by Seller under the purchase order infringe any valid and enforceable copyright, or trademark, provided however, that Buyer (i) gives immediate written notice to Seller, (ii) permits Seller to participate and to defend if Seller requests to do so, and (iii) gives Seller all needed information, assistance and authority. However, Seller will not be responsible for infringements resulting from anything not entirely manufactured by Seller, or from any combination with products, equipment, or materials not furnished by Seller. Seller will have no liability with respect to intellectual property matters arising out of products made to Buyer's specifications, code, or designs.

Except as expressly stated in this Paragraph 8 or in another writing signed by an authorized officer, Seller makes no representations and/or warranties with respect to intellectual and/or industrial property and/or with respect to claims of infringement. Except as to claims Seller agrees in writing to defend, BUYER WILL INDEMNIFY, DEFEND AND HOLD HARMLESS SELLER FROM ALL CLAIMS, COSTS, LOSSES, AND DAMAGES (INCLUDING ATTORNEYS FEES) AGAINST AND/OR ARISING OUT OF GOODS SOLD AND/OR SHIPPED HEREUNDER.

NO CONFIDENTIAL INFORMATION

Seller shall have no obligation to hold any information in confidence except as provided in a separate non-disclosure agreement signed by both parties.

10. ENTIRE AGREEMENT

- These terms and conditions are the entire agreement and the only representations and understandings between Seller and Buyer, and no addition, deletion or modification shall be binding on Seller unless expressly agreed to in written and signed by an officer of Seller.
- Buyer is not relying upon any warranty or representation except for those specifically stated here.

11. APPLICABLE LAW

The contract and all performance and disputes arising out of or relating to goods involved will be governed by the laws of R.O.C. (Taiwan, Republic of China), without reference to the U.N. Convention on Contracts for the International Sale of Goods or to conflict of laws principles. Buyer agrees at its sole expense to comply with all applicable laws conflict of laws principles. Buyer agrees at its sole expense to comply with all applicable laws in connection with the purchase, use or sale of the goods provided hereunder and to indemnify Seller from any failure by Buyer to so comply. Without limiting the foregoing, Buyer certifies that no technical data or direct products thereof will be made available or re-exported, directly or indirectly, to any country to which such export or access is prohibited or restricted under R.O.C. laws or U.S. laws or regulations, unless prior authorization is obtained from the appropriate officials and agencies of the government as required under R.O.C. or U.S. laws

12. <u>JURISDICTION AND VENUE</u>

The courts located in Hsinchu, Taiwan, Republic of China, will have the sole and exclusive jurisdiction and venue over any dispute arising out of or relating to the contract or any sale of goods hereunder. Buyer hereby consents to the jurisdiction of such courts.

13. ATTORNEYS' FEES

Reasonable attorneys' fees and costs will be awarded to the prevailing party in the event of litigation involving and/or relating to the enforcement or interpretation of the contract and/or any goods sold under it.
