

2.5mm Pitch Board to Board Vertical Post Header

MDF14A Series

■Features

1. Service Efficiency Up contact and contact.

The post header is developed in the special design capable of vertically connecting the board unnecessary for insertion or extraction.

The post header can be connected in combination of the receptacle with the plug at low cost.

2. Current Capacity [5A]

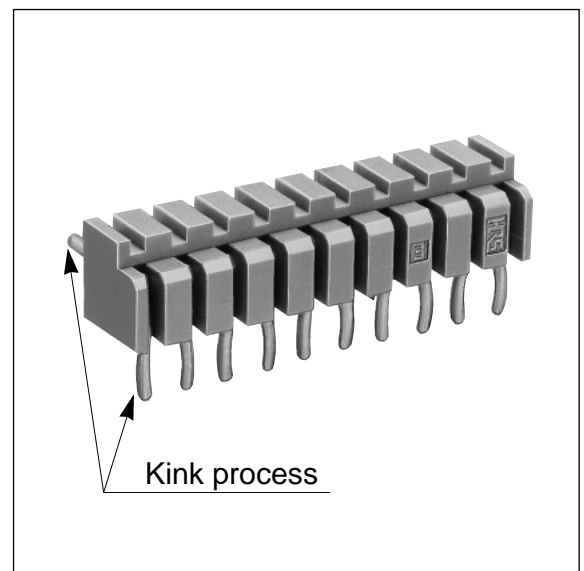

By adopting the 0.8mm round pin as the post pin, the pin strength can be enhanced as well as the current capacity can be maintained at 5A approximately.

3. Board Pre-fixed Mechanism

The kink process is provided for the board pre-fix process.

4. Pin Extraction Specification

The post header corresponds to individual pin extraction specifications.

■Applications

Various power supply units, and secondary power unit for the set
