

Dual Ports 10/100 Base-TX High Speed LAN Magnetic Modules For Various Transceiver ICs to work with single row RJ-45

- Designed to meet IEEE 802.3 and ANSI X3.263 standard including 350uH OCL with 8 mA bias
- Excellent EMI and Differential to Common Mode Rejection performance
- Designed to meet IR reflow at 235 Degree C peak temperature
- Available with various pinout for flexible circuit board layout
- Custom design with other transmit T/Rs, pinouts, packages and/or phase flipped are available on request

Electrical Specifications at 25°C:

Part Number	Circuit	Transmit Turns Ratio	Insertion Loss dB (Max) 0.1-100MHz	Differential to Common Mode Rejection (dB Typ.) 0.1-100MHz	Common to Common Mode Rejection (dB Typ.) 0.1-100MHz	Return Loss dB (Typ.)			Crosstalk dB (Typ.) 1-100MHz	Hipot Vrms (Min)
						30MHz	60MHz	80MHz
