

RN779F

For AGC, Switching.

- 1) Small mold type. (UMD3)
- 2) High-frequency resistance witch is small and low capacity.

Silicon epitaxial planar

The drawing shows a mechanical component with the following dimensions and features:

- Top View:**
 - Overall width: 2.0 ± 0.2
 - Distance from left edge to center of feature (3): 0.3 ± 0.1
 - Feature (3) is a rectangular hole with a width of 0.15 ± 0.05 .
 - Each lead has the same dimension.
 - Distance from center of feature (3) to right edge: 1.25 ± 0.1
 - Overall height: 2.1 ± 0.1
 - Distance from left edge to center of feature (2): 0.65
 - Distance from center of feature (2) to center of feature (1): 1.3 ± 0.1
 - Distance from center of feature (1) to right edge: 0.7 ± 0.1
 - Feature (1) is a rectangular hole with a width of 0.7 ± 0.1 .
 - Feature (2) is a rectangular hole with a width of 0.65 .
- Side View:**
 - Overall height: 0.9 ± 0.1
 - Distance from bottom edge to center of feature (1): 0.7 ± 0.1
 - Distance from center of feature (1) to top edge: 0.18 mm
 - Feature (1) is a rectangular hole with a width of 0.7 ± 0.1 .
 - Feature (2) is a rectangular hole with a width of 0.65 .
 - Feature (3) is a rectangular hole with a width of 0.15 ± 0.05 .

Diagram illustrating the dimensions of the UMD3 component. The dimensions shown are 1.3, 0.65, 0.9MIN., 0.8MIN., and 1.6.

Technical drawing of a mechanical part, showing a top view and a side view. The top view includes dimensions for hole positions and diameters. The side view shows the profile of the part with its overall dimensions.

Top View Dimensions:

- Distance between first two hole centers: 4.0 ± 0.1
- Distance between second and third hole centers: 2.0 ± 0.05
- Distance between third and fourth hole centers: 4.0 ± 0.1
- Distance from left edge to first hole center: 2.25 ± 0.1
- Distance from left edge to second hole center: 0
- Hole diameter: $\phi 1.55 \pm 0.05$
- Distance from bottom edge to hole center line: 5.5 ± 0.2
- Distance from bottom edge to hole center line (alternative): $0 \sim 0.1$
- Distance from bottom edge to hole center line (alternative): 2.4 ± 0.1
- Distance from bottom edge to hole center line (alternative): 3.5 ± 0.05
- Distance from bottom edge to hole center line (alternative): 1.75 ± 0.1
- Overall width: 8.0 ± 0.2

Side View Dimensions:

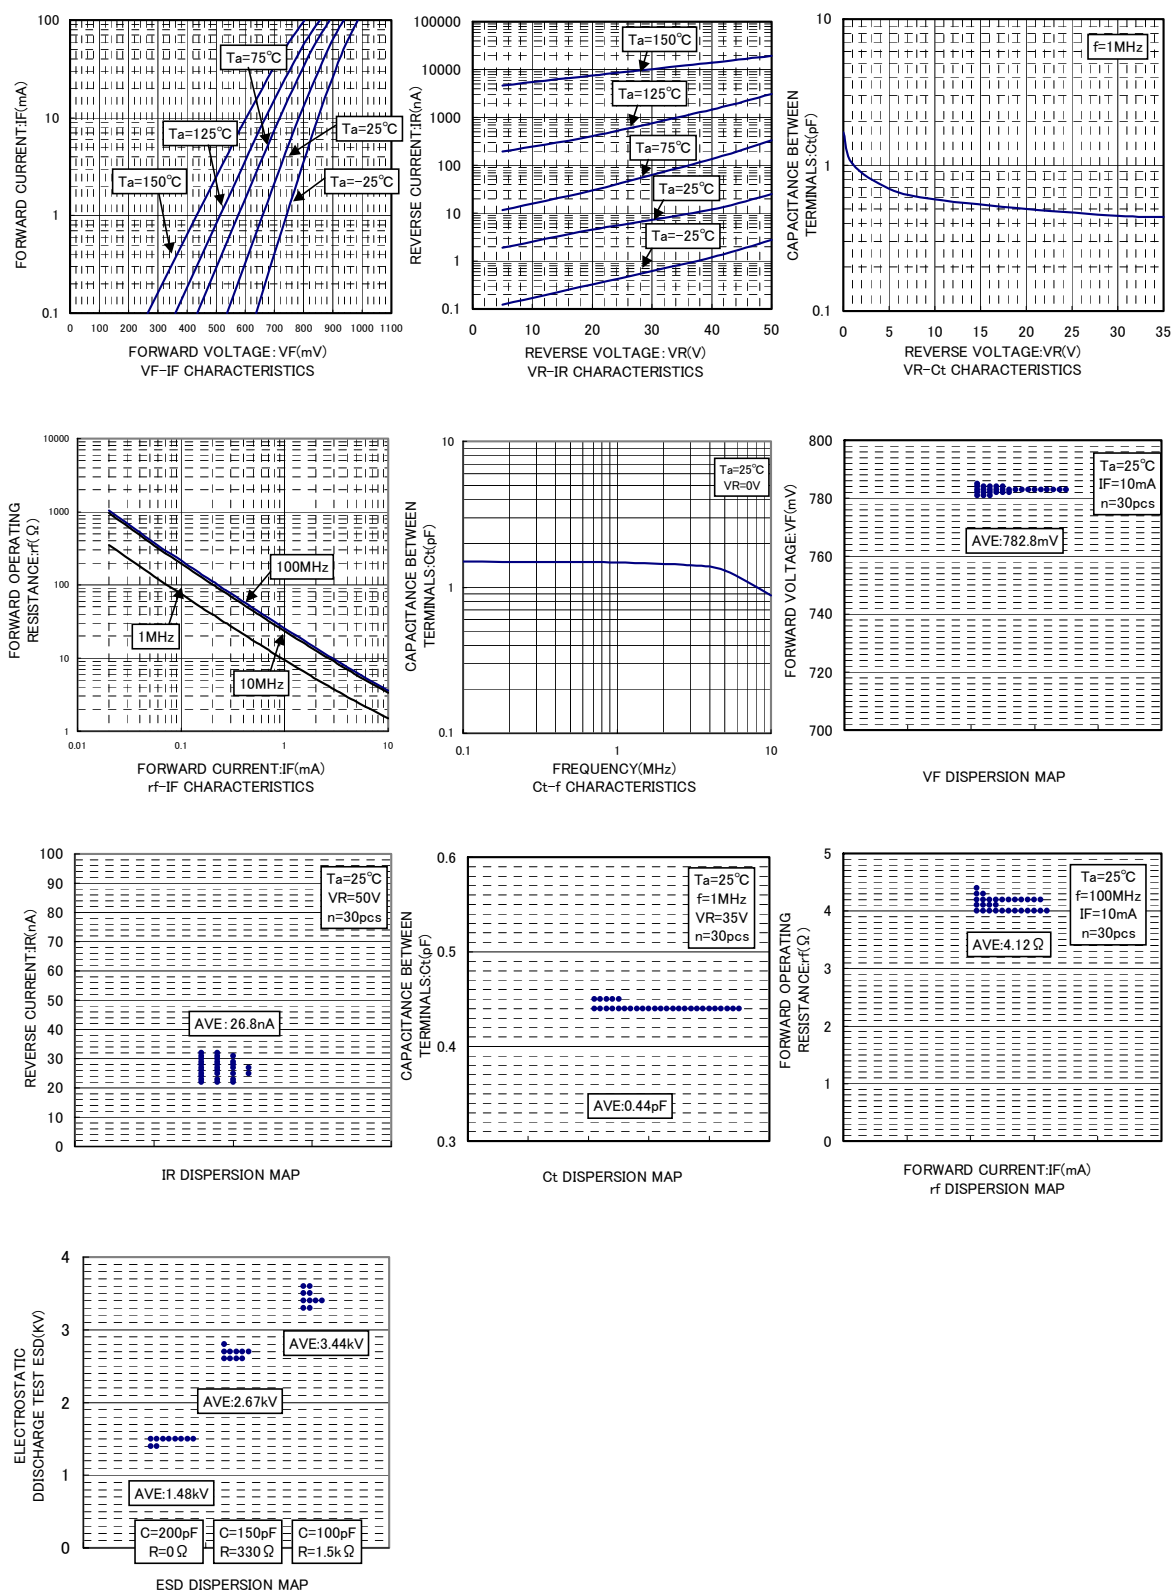

- Overall height: 24 ± 0.1
- Bottom flange thickness: 1.25 ± 0.1
- Top flange thickness: 0.3 ± 0.1

Parameter	Symbol	Limits	Unit
Reverse voltage (DC)	V_R	50	V
Forward current (DC)	I_F	50	mA
Junction temperature	T_j	150	°C
Storage temperature	T_{stg}	-55 to +150	°C

Parameter	Symbol	Min.	Typ.	Max.	Unit	Conditions
Forward voltage	V_F	-	-	1	V	$I_F=10mA$
Reverse current	I_R	-	-	0.1	μA	$V_R=50V$
Capacitance between terminals	C_t	-	-	0.9	pF	$V_R=35V$, $f=1MHz$
High frequency resistance	R_f	-	-	7	Ω	$I_F=10mA, f=100MHz$

Diodes

●Electrical characteristic curves (Ta=25°C)

Notes

- No technical content pages of this document may be reproduced in any form or transmitted by any means without prior permission of ROHM CO.,LTD.
- The contents described herein are subject to change without notice. The specifications for the product described in this document are for reference only. Upon actual use, therefore, please request that specifications to be separately delivered.
- Application circuit diagrams and circuit constants contained herein are shown as examples of standard use and operation. Please pay careful attention to the peripheral conditions when designing circuits and deciding upon circuit constants in the set.
- Any data, including, but not limited to application circuit diagrams information, described herein are intended only as illustrations of such devices and not as the specifications for such devices. ROHM CO.,LTD. disclaims any warranty that any use of such devices shall be free from infringement of any third party's intellectual property rights or other proprietary rights, and further, assumes no liability of whatsoever nature in the event of any such infringement, or arising from or connected with or related to the use of such devices.
- Upon the sale of any such devices, other than for buyer's right to use such devices itself, resell or otherwise dispose of the same, no express or implied right or license to practice or commercially exploit any intellectual property rights or other proprietary rights owned or controlled by
- ROHM CO., LTD. is granted to any such buyer.
- Products listed in this document are no antiradiation design.

The products listed in this document are designed to be used with ordinary electronic equipment or devices (such as audio visual equipment, office-automation equipment, communications devices, electrical appliances and electronic toys).

Should you intend to use these products with equipment or devices which require an extremely high level of reliability and the malfunction of which would directly endanger human life (such as medical instruments, transportation equipment, aerospace machinery, nuclear-reactor controllers, fuel controllers and other safety devices), please be sure to consult with our sales representative in advance.

About Export Control Order in Japan

Products described herein are the objects of controlled goods in Annex 1 (Item 16) of Export Trade Control Order in Japan.

In case of export from Japan, please confirm if it applies to "objective" criteria or an "informed" (by MITI clause) on the basis of "catch all controls for Non-Proliferation of Weapons of Mass Destruction.
