

HALO Electronics has developed this standard series of 10/100 Isolation Modules to specifically address the isolation, insertion loss and return loss requirements of IEEE 802.3u. All HALO isolation transformers are UL/EN60950 and DEMKO recognized. Available in industry standard and low profile packages. Isolation Modules are available for most LAN IC manufacturer's products. To select the correct Isolation Module please refer to the HALO Electronics [10/100 Selector Guide](#).

HALO ELECTRONICS, INC. SMD 10/100 Isolation Modules

HALO Electronics has developed this standard series of high performance Fast Ethernet Isolation Modules to specifically address the isolation, insertion loss and return loss requirements of IEEE 802.3u. Also compatible with ATM155 applications. All HALO isolation transformers are UL/EN60950 and DEMKO recognized. Available in industry standard and low profile packages. Isolation Modules are available for most LAN IC manufacturer's products. To select the correct Isolation Module please refer to the HALO Electronics [10/100 Selector Guide](#).
