Silicon Carbide (SiC) Diode - EliteSiC, TO-220-2L, 6 A, 650 V SiC Merged PiN-Schottky (MPS) Diode | UJ3D06506TS

Datasheet

# Description

United Silicon Carbide, Inc. offers the 3<sup>rd</sup> generation of high performance SiC Merged-PiN-Schottky (MPS) diodes. With zero reverse recovery charge and 175°C maximum junction temperature, these diodes are ideally suited for high frequency and high efficiency power systems with minimum cooling requirements.

| Part Number | Package   | Marking     |  |  |
|-------------|-----------|-------------|--|--|
| UJ3D06506TS | TO-220-2L | UJ3D06506TS |  |  |

### **Features**

- 175°C maximum operating junction temperature
- Easy paralleling
- Extremely fast switching not dependent on temperature
- No reverse or forward recovery
- Enhanced surge current capability, MPS structure
- Excellent thermal performance, Ag sintered
- 100% UIS tested

### **Typical Applications**

- Power converters
- Industrial motor drives
- Switching-mode power supplies
- Power factor correction modules

### **Maximum Ratings**

| Parameter   | Symbol                            | Test Conditions                                   | Value      | Units              |  |
|---|-----------------------------------|---|------------|--------------------|--|
| DC blocking voltage   | V <sub>R</sub>                    |   | 650        | V                  |  |
