

### Vishay High Power Products

### Schottky Rectifier, 100 A

| PRODUCT SUMMARY    |       |  |  |
|--------------------|-------|--|--|
| I <sub>F(AV)</sub> | 100 A |  |  |

#### **MECHANICAL DESCRIPTION**

The Gene ration 5 of ADD-A-PAK modul e combi ne the excellent the ermal performance obtained by the usage of direct bond ed copper substrate with superior mechanical ruggedness, than ks to the insertion of a solid copper baseplate at the bottom side of the device.

The Cu baseplate allow an easier mounting on the majority of heatsink with in creased tolerance of surface roughness and improved thermal spread.

The Generation 5 of ADD-A-PAK module is manufactured without hard mold, eliminating in this way any possible direct stress on the leads.

The electrical terminals are secured against axial pull-out: they are fixed to the module housing via a click-stop feature already tested and proved as reliable on other Vishay HPP modules.

#### **FEATURES**

- 150 °C T<sub>J</sub> operation
- · Low forward voltage drop
- High frequency operation

- Guard ring for e nhanced ru ggedness an d lo ng term reliability
- · UL pending
- Totally lead (Pb)-free, RoHS compliant
- · Designed and qualified for industrial level

#### **DESCRIPTION**

The VSKDS208.. Schottky rectifier doubler module has been optimized for low reverse leakage at high temperature. The proprietary barrier technology allows for reliable operation up to 150 °C junction temperature.

Typical app lications are in high curren t switching pow er supplies, plating power supplies, UPS systems, converters, freewheeling d iodes, we lding, and re verse battery protection.

| MAJOR RATINGS AND CHARACTERISTICS |                                  |             |    |  |
|-----------------------------------|----------------------------------|-------------|----|--|
| SYMBOL                            | CHARACTERISTICS VALUES UNITS     |             |    |  |
| I <sub>F(AV)</sub>                | Rectangular waveform             | 100         | А  |  |
| V <sub>RRM</sub>                  |                                  | 60          | V  |  |
| I <sub>FSM</sub>                  | $t_p = 5 \mu s \text{ sine}$     | 15 000      | А  |  |
| V <sub>F</sub>                    | 100 Apk, T <sub>J</sub> = 125 °C | 0.64        | V  |  |
| $T_J$                             | Range                            | - 55 to 150 | °C |  |

| VOLTAGE RATINGS                      |           |               |       |  |
|--------------------------------------|-----------|---------------|-------|--|
| PARAMETER SYMBOL                     |           | VSKDS208/060P | UNITS |  |
| Maximum DC reverse voltage           | $V_{R}$   | 60            | V     |  |
| Maximum working peak reverse voltage | $V_{RWM}$ | 00            | V     |  |
